

# NEW BRIGHTON

- In 2017, New Brighton Borough achieved certification through Sustainable Pennsylvania as a sustainable community, one of only five in Beaver County, and was featured in the June 2017 edition of the Sustainable Community Development Network newsletter.
- On February 22, representatives from the National Weather Service and the Pennsylvania Emergency Management Agency will be making their final site visit to New Brighton before awarding designation as a Storm Ready Community, to recognize New Brighton's proactive approach to emergency planning.
- New Brighton Borough is nearing completion of a fire department merger between the New Brighton Volunteer Fire Department and Fallston Volunteer Fire Department to deliver more cost effective and efficient services to both communities by eliminating duplicate resources.
- Expansion of the Merrick Art Gallery to incorporate Beaver County's first green parking lot through the construction of a porous paving parking lot that accommodates 22 vehicles and bus parking. (Anticipated 2018 construction)

# NEW BRIGHTON

- Development of a new 28,000 square foot grocery store at 800 Fifth Avenue to include a bakery and pharmacy. Project includes the renovation of a portion of an existing structure and new construction. (Under construction now)
- New construction of a 3,897 square foot multi-use commercial structure at 1030 Third Avenue to be occupied as a doctor's office. (Projected March 2018 groundbreaking)
- New construction of a 4,000 square foot Par Mar convenience store/restaurant with vehicle fueling stations at Fifth Avenue and Fifth Street. (Ready to break ground pending PennDOT approvals.)
- New construction of a 3,936 square foot Speedway convenience store/restaurant with vehicle fueling stations at the 410 Fifth Street. Projected March groundbreaking.
- Expansion of Brighton Health Mart Pharmacy into the adjacent 517 Fifth Avenue. Project includes beautifying the structure's façade by replacing the existing overhead door with a man door, installing a smaller overhead door, painting the building, installing lighting, and installing awnings over the doors. (Under construction now)
